SYNERGY OF INDUSTRY AND SCIENCE FOR SUSTAINABLE FUTURE

SCIENTIFIC CONFERENCE

Organizers: Kaunas University of Applied Engineering Sciences together with social partners.
The conference will be held on Zoom platform.

CONFERENCE THEMES:

Engineering Technology for Sustainable Future:

- Research on Electronics and Electrical Engineering Systems.
- Technological Research on Land and Air Transport.
- Research on the Efficiency of Modern Material Processing Technologies.
- Research on Sustainable Construction and Road Engineering Solutions.

Smart Society:

- Research on the development of engineering and general competences through the implementation of the concept of lifelong learning

REGISTRATION

Registration is open **until November 20th 2023**
